Computer Applications-Grade Sheet
Spring 2008

Student_____

Face

Grading Methodology
Each category will be assigned a number. In order to weight ideas differently, that number will shown as a fraction, for example: 9/10 would be nine points earned out of a total of ten possible.

Assignment Parameters
- Create a face using different elements not usually associated with facial features.
  - People have used vegetables, fruits, machine parts, etc…

Grade	Category	Note
/1	**Cleanliness of selections**	
/1	**Sophistication of merging disparate elements**	
/1	**Use of Layers**	
/.5	**Fun**	
/.5	**Complexity of work**	
/1	**Use of transforms**	
	Other	
/5	**Final Grade**
