The Visit

Project Goal

You will design a set for *The Visit* by Friedrich Durrenmatt. This design will focus on the following priorities:

- ❖ Creating a unique universe in which this play can take place
- ❖ A distinct point of view on what is happening in the play
- ❖ What does this place remind you of? What can you research?
- ❖ Dealing with changes of location.
- ❖ Collaborating with a faculty director.

Project Guidelines

For this project you will:

- ❖ Design for The Chosky.
- ❖ Do a thorough job on research of both of the imagery and more concrete details.
- ❖ Think of design in four dimensions, length, width height and TIME.
- ❖ NOT make any assumptions at the beginning. Not design scenery, but create a new world from the bottom up.
