Merit Badge University Registration Survey

Note: This is not a change, but a way to get feedback on how we can improve Merit Badge University

Alpha Phi Omega Kappa Chapter would like to move away from traditional "snail mail" in favor of internet communication to spread registration information. There are many benefits to providing registration packets through email and/or website. This would save money for the chapter, the district, and your troops as well as allow every troop to get access to the registration materials at the same time. We would also be able to send out registration packets much earlier in the year. Note: This does not mean we would have online registration. Registration would still be done through the U.S. Postal Service. **Only the method of receiving registration information would change.**

My troop's contact email:_____

(This way we can contact your troop quickly in the event of any changes to the schedule or merit badges offered)

- I would prefer to receive Registration information exclusively through the email address above/
Alpha Phi Omega Kappa Chapter website**

- I prefer the current system**
