Education Bachelor of Art in Architectural Studies and Tangible Design from Carnegie Mellon University, graduating in May 2009

Skills Physical modelling in diverse media
Design and construction with textiles
Arduino programming and electronics
AutoCAD and Adobe Suite

Experience *Intern for Specter Studios:*
Produced pieces in both latex and fabric and learned about management and manufacturing processes at a Pittsburgh-based Halloween costume company
Lab Assistant for the Letterpress Lab at Carnegie Mellon University:
Organized lab supplies, made sample projects, and assisted student projects
Officer of Carnegie Mellon KGB:
As Sergeant at Arms, recruited new members and organized club belongings; as First Vice President, designed publicity materials and helped run events
Technician for high school, community, and professional theatre:
Worked a variety of roles, including stage manager, light board operator, run crew, set design, costume design, and lighting design

Accomplishments *International Symposium on Wearable Computers, October 2007 & September 2008:*
Student Volunteer: helped run the event, attended lectures and workshops; presented an entry in the Design Exhibition in 2008
Instamatique, April 2007:
Organized, publicized, and ran an experimental art event
Lunar Gala, February 2006:
Designed and fabricated a set of six costumes for a student-run fashion show
