

Topic Presented:

Bandwidth Policies

	Member Name	Part Presented	Duration (min)
1	bfp	Reasons for blocking	2
2	mreiss	What is bandwidth	4
3	rdrobert	How is it blocked at CMU	3
4	repferde	Reasons against blocking	31
5			

Total Presentation Length (min): **40**

Tasks

1. Populate all necessary information (topic presented, member names, what parts they will present, how long each member will present for)
2. Sort by Member Name in ascending order.
3. Change cells B4:D4 and C11 to BOLD formatting
4. In cell D11, insert a formula that calculates the total length of your presentation
5. CONDITIONALLY format cell D11 to display text as red if the total length of the presentation is NOT BETWEEN 10 and 12 minutes
6. Insert a pie chart that details the how the presentation will be distributed (either by presenter or part presented). Name it "Presentation Distribution" and place it under the data
