EDUCATION

Carnegie Mellon University in Qatar
Bachelors of Science in Artificial Intelligence

August 2026 - Present

LANGUAGES

Computer Languages	Python, JavaScript, SQL, HTML
Spoken & Written	English (fluent), Urdu (native), Hindi (native), Arabic (basic)

RESEARCH

Chatbots for Healthcare June 2024 - March 2025
Cureus Journal of Medicine, PubMed

- Worked on and published a review paper which analyzed the major developments AI chatbots were assisting with in healthcare, particularly with patient diagnosis, treatment, monitoring, and support.

The Impact of COVID on the Wellbeing of Children December 2022 - June 2023
HCA Healthcare Journal of Medicine, PubMed

- Conducted a literature review on the effects of the coronavirus pandemic on the mental and physical health of school-aged children, which was later peer-reviewed and published.

AI in Oncology August 2025 - November 2025
Qatar Cancer Society (QCS), UDST

- Researched the possibilities of early cancer diagnosis and risk stratification due to artificial intelligence.
- Presented my findings as a poster at the Technological Innovations in Cancer Risk Reduction & Detection Conference, held by Qatar Cancer Society at the University of Doha for Science and Technology.

EXPERIENCE

Head of Graphic Design, NexTech Visionaries August 2024 - March 2026

- Co-organized a national hackathon and multiple technological workshops, drawing over 100 attendees.

HBKU Qatar Invents 2025 July 2025

- Developed a concept, along with a working model, to make household water recycling and reuse more efficient.

AWARDS

1 of 8 students in a graduating cohort of over 300 to be granted the School Special Award, for maintaining the status of an academic Scholar for seven consecutive years.

Ranked 7th in the country in the Maths and Science Excellence Test (MASET Olympiad) in 2024.

Was awarded Best Engineering Solution at the Qatar Invents workshop held at Hamad bin Khalifa University in 2025.
